

Bowling Machine - More Authorised Users

Graham Sigsworth, Tom Sigsworth, Matthew Clark and Lee Miers were trained and signed up on Tuesday evening by Peter Lockwood as authorised users of our excellent new piece of kit. That makes seven in total alongside Graham Hunt, Nick Read and Colin Lockwood. The bowling machine is being used regularly on Friday night junior coaching sessions. Colin came along on Tuesday and was very helpful at the training session providing an experienced user's tips and collecting the balls!

If you want to be trained to use the bowling machine, please contact Peter. There needs to be enough people wanting to be trained to 'fill' a session which lasts about two hours.

On the negative side, we found the side netting in the practice nets had not been hitched up as required after whoever had used the nets before. And there were big holes in the expensive new netting either from animals chewing them (because they had not been hitched up out of the way) or from abuse by people using the nets. Come on, it's not difficult to use the nets properly.
